**REQUEST AND/OR PETITION FOR CORRECTION OF FILING RECEIPT
TO INCLUDE PRIORITY DATA AND CORRECTED FILING DATE**

Sir:

Applicants respectfully request and petition that the *Filing Receipt* (copy enclosed with changes noted therein) for this application be corrected as follows:

(1) The filing date of the application is listed as March 22, 2004, the date of applicants' submission of replacement Figures 1 through 40R. Applicants respectfully submit that the application is entitled to the original filing date of September 11, 2003, because the replacement Figures were

01 FC:1460

130.00 OP

made in response to a *Notice to File Missing Parts*, and further because the replacement Figures contained no new matter.

The application as filed on September 11, 2003 contained Figures 1 through 34 and 36 through 40R. The *Notice to File Missing Parts* mailed on January 20, 2004 indicated that Figures 20 and 32 were objected to based on informal printing requirements, and that Figure 35 was missing.

In response, applicants submitted a *Response to Notice to File Missing Parts* on March 22, 2004, re-submitting Figures 1 through 40R, identical in all respects, except that Figures 20 and 32 were reprinted to meet the informal printing requirements, and Figure 35 was provided. As explained in the *Response to Notice to File Missing Parts* at page 1 and the accompanying *Preliminary Amendment* at page 4, the inclusion of Figure 35 did not constitute new matter because it was the same as Figure 34 in the parent application, U.S. Serial No. 10/379,287 which was properly incorporated by reference in the present application.

For at least the above reasons, applicants believe that the present application is entitled to its original filing date of September 11, 2003, and therefore respectfully request and petition correction of the filing date on the *Filing Receipt*.

(2) The Domestic Priority data should reflect that the present application claims priority as a continuation-in-part of U.S. Application No. 10/379,287 filed March 3, 2003, which claims the benefit of U.S. Provisional Application No. 60/440,201 filed January 15, 2003 and U.S. Provisional Application No. 60/360,821 filed March 1, 2002. The claim to the filing dates of these parent applications was made in both the *Declaration and Power of Attorney* and the original application as filed. Additionally, a *Second Preliminary Amendment* is being filed concurrently, in which the corresponding priority claim has been clarified. A copy of this *Second Preliminary Amendment* is enclosed herewith. Therefore, applicants respectfully request and petition that the Filing Receipt be corrected to reflect this claim for priority.

Accordingly, please issue a corrected filing receipt and update the PTO records to reflect the corrections as indicated in red ink on the revised copy of the Filing Receipt enclosed herewith.

In accordance with 37 C.F.R. §1.17(h), a fee of \$130.00 is believed to be due for the filing of this Request and/or Petition. A check in that amount is enclosed herewith. The Director is hereby authorized to charge all additional required fees and credit any overpayments to Deposit Account No. 50-0540.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

SECOND PRELIMINARY AMENDMENT

Sir:

Before issuance of an Office Action, please amend the specification as indicated below.

Amendments to the Specification begin on page 2 of this paper.

Remarks begin on page 3 of this paper.

IN THE SPECIFICATION

On page 1, under the heading “Related Applications,” please delete the paragraph at lines 6-9 and insert therefor the following paragraph:

This application is a continuation in part of U.S. Application No. 10/379,287 filed March 3, 2003, which claims the benefit of U.S. Provisional Application Serial No. 60/440,201 filed January 15, 2003 and U.S. Provisional Application Serial No. 60/360,821 filed March 1, 2002, all of which are incorporated by reference herein in their entirety.

REMARKS

The specification has been amended to correctly identify the present application as a continuation in part application of U.S. Application No. 10/379,287 filed March 3, 2003, which claims the benefit of U.S. Provisional Application Serial No. 60/440,201 filed January 15, 2003 and U.S. Provisional Application Serial No. 60/360,821 filed March 1, 2002, all of which are incorporated by reference herein in their entirety.

Applicants have previously claimed benefit to these aforementioned applications in the original application as filed (*i.e.*, in the Specification, at page 1, lines 6-9), as well as in the *Declaration and Power of Attorney*. To better clarify this claim for priority, applicants thus file the present *Second Preliminary Amendment* to more clearly define that the present application is a continuation-in-part application.

No new matter has been added. No fee is believed to be due for the filing of this *Second Preliminary Amendment*. Please charge any required fees or credit any overpayment to Deposit Account No. 50-0540.
